

Delivering compressor technology with a digital advantage

Howden, A Chart Industries Company, offers unparalleled expertise in every application where reliable, round the clock operation is paramount.

With our unique digital solution, Howden Uptime, you can avoid unplanned downtime and increase the maintenance intervals for your rotating equipment, which can help to reduce overall total cost of ownership.

With over 60,000 compressors and 4,500 steam turbines sold worldwide, Howden is your trusted partner in providing solutions for some of the most critical and demanding applications.

Revolving Around You™
